

# ADMIRALTY NOTICES TO MARINERS

## Weekly Edition 6

11 February 2010

(Published on the UKHO Website 1 February 2010)

---

### CONTENTS

---

- I** Explanatory Notes. Publications List
- II** Admiralty Notices to Mariners. Updates to Standard Nautical Charts
- III** Reprints of Radio Navigational Warnings
- IV** Amendments to Admiralty Sailing Directions
- V** Amendments to Admiralty Lists of Lights and Fog Signals
- VI** Amendments to Admiralty List of Radio Signals

---

Mariners are requested to inform the UK Hydrographic Office, Admiralty Way, Taunton, Somerset TA1 2DN immediately of the discovery of new dangers, or changes or defects in aids to navigation and of shortcomings in Admiralty charts or publications. Copies of form H 102, which is a convenient form on which to send in a report, may be obtained gratis from any Admiralty Distributor or the reproduction at the end of Section VI of the Weekly Edition of Notices to Mariners may be used. A copy of the form, which may be used as a pro forma, is also printed in the Mariner's Handbook (NP 100). Reports can also be made through the UKHO website.

In addition to postal methods, the following additional communication facilities are available:

© British Crown Copyright 2010. All rights Reserved. Permission is not required to make analogue copies of these Notices, but such copies may not be sold without the permission of the UKHO. Permission to sell copies of the Notices or to make digital copies can be obtained from the Senior Licensing Manager, Intellectual Property Branch, UK Hydrographic Office, Admiralty Way, Taunton, Somerset TA1 2DN, United Kingdom.

## **GUIDANCE NOTES FOR THE USE OF ADMIRALTY NOTICES TO MARINERS ON THE UKHO WEBSITE**

The Weekly Notices to Mariners (NM) updates for paper Charts and Publications can be accessed through the UKHO Website [www.ukho.gov.uk](http://www.ukho.gov.uk), or the searchable NM Website [www.nmwebsearch.com](http://www.nmwebsearch.com). The latest digital NM Weekly update is available 10 days prior to the paper publication date; there are no subscription fees for access to the UKHO Notices to Mariners Website.

**NB:** The NM database includes historical NM data from 1 January 2000, for NMs prior to 2000 the Cumulative List of Notices to Mariners (NP234B-00) must be used.

### **Software required:**

Adobe Acrobat Reader (Version 6.0 or later). Reader software can be obtained direct from the Adobe website ([www.adobe.com](http://www.adobe.com)).

### **SEARCHABLE NOTICES TO MARINERS**

Enter the [www.nmwebsearch.com](http://www.nmwebsearch.com) website and select the search option that you require following the on screen instructions:

- Search NMs by - Chart Number only
- Search NMs by - Chart Number + Previous NM Number/Year
- Search NMs by - Chart Number + Between Previous and Present Dates
- Search for Single NM by NM Number/Year

To view the NM, NM Note or full-colour NM Blocks, click on the relevant link.

### **NOTICES TO MARINERS ON-LINE**

Enter the [www.ukho.gov.uk/msi](http://www.ukho.gov.uk/msi) website, and then select Notices to Mariners. This will give you access to the following range of Notice to Mariners services:

- *Admiralty NM Web Search*
- *Weekly NMs*
- *NM Block, Notes and Diagrams*
- *Annual NMs*
- *Cumulative NM List*

### **FURTHER GUIDANCE NOTES**

For further details of the online NM facilities please see the NM Guidance Notes on the website, additional detail includes:

- File content and description
- PC and printer specifications

### **CUSTOMER SERVICE**

If you experience any difficulties, please contact the UKHO Customer Service on:

Tel: +44 (0) 1823 337900 Ext.5030

Tel Direct: +44 (0) 1823 723366

Fax: +44 (0) 1823 330561

e-mail: [customerservices@ukho.gov.uk](mailto:customerservices@ukho.gov.uk)

# ADMIRALTY NOTICES TO MARINERS

---

This Admiralty Notices to Mariners Bulletin (ANMB) is published by the UK Hydrographic Office (UKHO). The UK Maritime and Coastguard Agency accepts that both the paper and digital forms of the ANMB comply with carriage requirement for Notices to Mariners within Regulation 19.2.1.4 of the revised Chapter V of the Safety of Life at Sea Convention, and the Merchant Shipping (Safety of Navigation) Regulations, both of which came into force 1 July 2002.

While every effort is made to ensure that the data provided through the Notices to Mariners service is accurate, the user needs to be aware of the risks of corruption to data. It is important that the user should only use the data on suitable equipment and that other applications should not be running on the user's machine at the same time. Users should exercise their professional judgement in the use of data and also consult the Mariners' Handbook (NP100) for further details.

The user needs to be aware that there is a possibility that data could be corrupted during transmission, or in the process of display or printing on the user's equipment, or if converted to other software formats, and is accordingly advised that the UKHO cannot accept responsibility for any such change, or any modifications or unauthorised changes, made by licensees, or other parties.

# I

## EXPLANATORY NOTES

### Dating

Weekly Notices are dated for the Thursday appropriate to the week that the printed version is despatched from the UKHO. They are available earlier from the UKHO website.

### Charts and Positions

The notices in Section II give instructions for the updating of standard nautical charts and selected thematic charts in the Admiralty series. Geographical **positions** refer to the horizontal **datum** of the current edition of each affected chart which is stated in the notice alongside the appropriate chart number. Positions are normally given in degrees, minutes and decimals of a minute, but may occasionally quote seconds for convenience when plotting from the graduation of some older-style charts. Where **Leisure Products** are referred to different horizontal datums from the standard nautical charts for that geographical area, positions in the notices cannot be plotted directly on these products. Bearings are true reckoned clockwise from 000° to 359°; those relating to lights are from seaward. Symbols referred to are those shown on Chart 5011. Depths and heights are given in metres or fathoms and/or feet as appropriate for the chart being updated (abbreviated where necessary to m, fm and ft respectively). Blocks and notes accompanying notices in Section II are placed towards the end of the section.

### Temporary and Preliminary Notices

These are indicated by (T) or (P) after the notice number and are placed at the end of Section II. They are printed on one side of the paper in order that they may be cut up and filed. To assist in filing, the year is indicated after the notice number and an in-force list is published monthly. **Information from these notices is not included on charts before issue;** charts should be updated in pencil on receipt.

### Original Information

A star adjacent to the number of a notice indicates that the notice is based on original information.

### Further Guidance

The Mariner's Handbook (NP100) gives a fuller explanation of the limitations of charts and details of the UKHO policy for the promulgation and selection of navigationally significant information for charts. Details of chart updating methods can be found in NP294, "How to Keep Your Admiralty Charts Up-to-date". All users are advised to study these publications.

### Lights

When a light is affected by a notice its Light List number is quoted. The detailed amendment to the List of Lights is given in Section V and may be published in an earlier edition than the chart-updating notice. The entire entry for each light amended will be printed (including minor changes) and an asterisk (\*) will denote which column contains an amendment. In the case of a new light, or where a new sequence is added below the main light, an asterisk (\*) will appear under **all** columns. All Section V entries are intended to be cut out and pasted into the book. It is emphasised that the List of Lights is the primary source of information on lights and that many alterations, especially those of a **temporary but operational** nature, are promulgated **only** as corrections to the List of Lights. Light positions should be regarded as approximate and are intended to indicate the relative positions of lights only. Charts should be consulted for a more authoritative position. The range of a light is normally the nominal range, except when the responsible authority quotes luminous or geographical range.

### Radio Signals

When a chart-updating notice is issued for information that is also included within Admiralty List of Radio Signals, the appropriate volume reference number is quoted, followed in parentheses by the number of the Weekly Edition containing (in Section VI) the corresponding amendment to the service details.

The amendments in Section VI should be cut out and pasted into the appropriate volumes.

### Sailing Directions

Amendments to Sailing Directions are given in Section IV. Those in force at the end of the year are reprinted in the Annual Summary of Admiralty Notices to Mariners Part 2 (NP 247(2)). A list of amendments in force is published in Section IV of the Weekly Edition quarterly.

For volumes of Sailing Directions maintained by Continuous Revision, amendments may be cut out and pasted/corrected directly in to the book. Alternatively, and for the remaining volumes of Sailing Directions maintained by Supplement, it is recommended that amendments are kept in a file with the latest list of amendments in force on top. The list should then be consulted when using the parent book to see if any amendments, affecting the area under consideration, are in force. It is not recommended that amendments be stuck in the parent book, or the supplement of Sailing Directions maintained by supplement.

### Radio Navigational Warnings

See Note at the start of Section III.

**CAUTIONARY NOTES****Updating**

Updating information is published by Weekly Notices to Mariners supplemented by radio warnings for items of immediate importance. It should be borne in mind that they may be based on reports which cannot always be verified before promulgation, and that it is sometimes necessary to be selective and promulgate only the more important items to avoid overloading users; the remainder being included in revised editions of the charts and publications concerned.

**Laws and Regulations**

While, in the interests of the safety of shipping, the UKHO makes every endeavour to include in its publications details of the laws and regulations of all countries appertaining to navigation, it must be clearly understood:—

- (a) that no liability whatsoever can be accepted for failure to publish details of any particular law or regulation, and
- (b) that publication of the details of a law or regulation is solely for the safety and convenience of shipping and implies no recognition of the international validity of the law or regulation.

**Reliance on Charts and Associated Publications**

While every effort is made to ensure the accuracy of the information on Admiralty charts and other publications, it should be appreciated that it may not always be complete and up-to-date. The mariner must be the final judge of the reliance he can place on the information given, bearing in mind his particular circumstances, local pilotage guidance and the judicious use of available navigational aids.

**Charts**

Charts should be used with prudence: there are areas where the source data are old, incomplete or of poor quality. The mariner should use the largest scale appropriate for his particular purpose; apart from being the most detailed, the larger scales are usually corrected first. When extensive new information (such as a new hydrographic survey) is received, some months may elapse before it can be fully incorporated in published charts. On small scale charts of ocean areas where hydrographic information is, in many cases, still sparse, charted shoals may be in error as regards position, least depth and extent. Undiscovered dangers may exist, particularly away from well-established routes.

**Satellite-Derived Positions and Chart Accuracy**

Mariners must not assume that charts which are referred to WGS84 Datum, or those for which shifts to WGS84 Datum are provided, have been surveyed to modern standards of accuracy. On some charts, owing to the age and quality of the source information, some of the charted detail may not be positioned accurately. In such cases mariners are advised to exercise particular caution when navigating in the vicinity of dangers, even when using an electronic positioning system such as GPS. For further details, see The Mariner's Handbook (NP100). This applies to both paper and digital (ARCS and ENC) versions of charts.

### 630(P)/10 CHINA - East Coast - Dong Hai - Min Jiang, Wulong Jiang and Minjiang Kou and Approaches - Depths. Fairway. Anchorage areas. Bridge. Mooring buoys. Restricted area. Jetties. Light-beacons.

Source: Chinese Charts 13991, 13992 & Chinese Notices 52/1940-1941/09

1. Changes have taken place to charted detail within Min Jiang, Wulong Jiang and Minjiang Kou and approaches.
2. A 2m depth exists at Fanzhu Shi in position 26° 05′.08N., 119° 49′.30E.
3. Deeper water than charted exists within Minjiang Kou fairway as follows:  
Depths of greater than 5.5 m exist within the fairway entrance between positions 26° 04′.94N., 119° 48′.00E. and 26° 05′.07N., 119° 46′.84E.  
Depths of greater than 6.8 m exist within the fairway between positions 26° 05′.80N., 119° 41′.30E. and 26° 06′.55N., 119° 40′.27E.
4. A section of the fairway through Min Jiang has changed and now runs on a bearing of 112.5° between existing leads in positions 26° 07′.47N., 119° 39′.04E. and 26° 08′.03N., 119° 37′.48E.
5. A 4.4 m depth exists within the fairway in position 26° 08′.02N., 119° 37′.10E.
6. Circular anchorage areas, radius 200m, have been established, centred on the following positions:  
  
No 1 26° 08′.18N., 119° 36′.68E.  
No 2 26° 07′.88N., 119° 36′.79E.
7. An anchorage area has been established within Min Jiang, bounded by the following positions:  
  
26° 07′.55N., 119° 33′.95E. (fairway limit)  
26° 07′.78N., 119° 34′.35E.  
26° 08′.02N., 119° 34′.35E.  
26° 07′.32N., 119° 33′.15E.  
26° 07′.19N., 119° 33′.30E.  
26° 07′.23N., 119° 33′.38E. (fairway limit)
8. A bridge has been constructed across Wuzhu Gang between positions 26° 09′.24N., 119° 35′.83E. and 26° 09′.38N., 119° 36′.07E.
9. Mooring light-buoys, *Mo(Q)Y.12s*, have been established in the following positions:  
  
No 6 26° 06′.78N., 119° 32′.80E.  
No 7 26° 06′.67N., 119° 32′.70E.  
No 8 26° 06′.57N., 119° 32′.59E.
10. An anchorage area has been established bounded by the following positions:  
  
26° 04′.48N., 119° 31′.57E.  
26° 05′.05N., 119° 31′.63E.  
26° 04′.99N., 119° 32′.10E.  
26° 04′.63N., 119° 31′.87E.  
26° 04′.48N., 119° 31′.57E.
11. A restricted area, anchoring prohibited, has been established between lines joining the following positions:  
  
26° 03′.43N., 119° 30′.42E. (shore)  
26° 03′.27N., 119° 30′.72E. (shore)  
and  
25° 59′.10N., 119° 28′.41E. (shore)  
25° 59′.47N., 119° 27′.95E. (shore)
12. New jetties exist joining the following positions:  
  
26° 00′.44N., 119° 29′.42E. (shore)  
26° 00′.44N., 119° 29′.25E.  
26° 00′.34N., 119° 29′.22E.  
and  
26° 00′.09N., 119° 29′.06E.  
25° 59′.91N., 119° 28′.94E.
13. The section of fairway between positions 26° 01′.38N., 119° 29′.63E. and 25° 59′.77N., 119° 28′.68E. has been replaced by a recommended track with a maximum authorised draught of 8m.

### 705(P)/10 CHINA - East Coast - Xiamen Gang and Approaches - Coastline. Fairways. Buoyage. Depths. Radar beacon. Rock. Pier. Automatic Identification System.

Source: Chinese Charts 14281, 14291, 14292, 14293, 14295 & Chinese Notices 45/Section 1/07, 49/Section 1/07, 47/1783-1785/09, 48/1811/09 & 2/74/10

1. There have been extensive changes to coastline, fairways, buoyage and depths in Xiamen Gang and its approaches.
2. Numerous depths less than charted exist within, and in the approaches to Xiamen Gang. The most significant are as follows:

19.3 m	24° 17' 48N., 118° 10' 35E.	
0.1 m	24° 22' 43N., 118° 08' 26E.	
9.9 m	24° 24' 72N., 118° 04' 04E.	
6.9 m	24° 24' 18N., 118° 05' 08E.	(Anchorage Area No 3)
6.7 m	24° 24' 76N., 118° 03' 25E.	(Turning Area)
6.8 m	24° 25' 22N., 118° 02' 89E.	(Anchorage Area No 5)
7.9 m	24° 25' 86N., 118° 02' 78E.	(Anchorage Area No 5)
9.1 m	24° 25' 43N., 118° 03' 36E.	(Anchorage Area No 5)
8.1 m	24° 24' 85N., 118° 03' 54E.	(Turning Area)
5.4 m	24° 25' 65N., 118° 01' 51E.	(Anchorage Area No 7)

3. A radar beacon, *Racon(Y)*, exists at light-buoy *No 19* (24° 24' 22N., 118° 06' 30E.).
4. The limits of the fairway leading to Zhangzhou Gang have been changed in the vicinity of light-buoy *No 103* (24° 17' 68N., 118° 10' 32E.) and within Zhangzhou Gang (24° 18' 95N., 118° 08' 20E.).
5. A new fairway, width 150m, has been established through Erdan Hangmen from position 24° 22' 43N., 118° 09' 21E. to position 24° 26' 23N., 118° 04' 63E. (existing fairway). A shoal depth of 11.8 m exists at the entrance to Erdan Hangmen in position 24° 22' 55N., 118° 09' 19E.
6. Depths less than charted exist in the channels east and west of Xiaojinmen Dao (24° 26' 1N., 118° 14' 8E.). The most significant are as follows:

5.5 m	24° 26' 25N., 118° 12' 98E.
4.2 m with seabed character, <i>R</i>	24° 27' 49N., 118° 16' 83E.

7. Depths less than charted exist within Lujiang Shuidao (24° 27' 20N., 118° 04' 10E.). The most significant are as follows:

3.5 m	24° 27' 65N., 118° 03' 95E.
10m	24° 27' 20N., 118° 04' 06E.
6.1 m	24° 27' 05N., 118° 04' 40E.

8. The following depth no longer exists:

8.6 m	24° 28' 16N., 118° 03' 50E.
-------	-----------------------------

9. The pier in position 24° 31' 94N., 118° 05' 08E. has been extended north-eastwards to position 24° 32' 05N., 118° 05' 12E.
10. A new fairway, width 200m, least depth 12.0 m, has been established in Zhangzhougang Jingang Hangdao, joining position 24° 24' 68N., 118° 05' 27E. (existing fairway) and position 24° 24' 98N., 118° 03' 54E.
11. The limits of the fairway between Zhu Hangdao position 24° 26' 06N., 118° 02' 86E. (existing fairway) and position 24° 28' 75N., 118° 03' 50E. have changed. The least depth throughout the fairway is 11.8 m.
12. The limits of the Haicang Hangdao fairway have been changed, centred on a line joining the following positions:

	<i>Width Least Depth</i>
24° 25' 81N., 118° 03' 30E. (existing fairway)	250m 14m
24° 26' 40N., 118° 01' 11E.	250m 14m
24° 26' 58N., 118° 00' 26E.	250m 14m
24° 26' 66N., 117° 59' 84E.	190m 10.4 m
24° 26' 71N., 117° 59' 60E.	190m 10.4 m

## II

### 705(P)/10 CHINA - East Coast - Xiamen Gang and Approaches - Coastline. Fairways. Buoyage. Depths. Radar beacon. Rock. Pier. Automatic Identification System. (continued)

13. \*Changes to buoyage in Haicang Hangdao have taken place.

The following light-buoys have been removed:

<i>Designation</i>	<i>Characteristics</i>	<i>Position</i>	<i>Type</i>
No 26	Q.R	24° 25'·58N., 118° 03'·49E.	Port-hand
No 604	Fl(3)R.10s	24° 26'·33N., 118° 01'·28E.	Port-hand
No 606	Q	24° 26'·34N., 118° 00'·82E.	North cardinal
No 609	Fl(2)G.6s	24° 26'·88N., 117° 59'·78E.	Starboard-hand

Light-buoys have been established as follows:

<i>Designation</i>	<i>Characteristics</i>	<i>Position</i>	<i>Type</i>
No 604	Q	24° 26'·15N., 118° 01'·59E.	North cardinal
No 606	Fl(3)R.10s	24° 26'·33N., 118° 01'·09E.	Port-hand
No 614	Fl.R.4s	24° 26'·79N., 117° 59'·42E.	Port-hand

The following light-buoys have been moved:

<i>Designation</i>	<i>Characteristics</i>	<i>New Position</i>	<i>Type</i>
No 601	Fl(2)G.6s	24° 26'·17N., 118° 02'·51E.	Starboard-hand
No 602	Fl(2)R.6s	24° 26'·06N., 118° 02'·07E.	Port-hand
No 608	Fl.R.4s	24° 26'·45N., 118° 00'·46E.	Port-hand
No 610	Fl(2)R.6s	24° 26'·61N., 117° 59'·83E.	Port-hand
No 612	Fl(3)R.10s	24° 26'·66N., 117° 59'·59E.	Port-hand

14. \* An Automatic Identification System, AIS, has been established at starboard-hand light-buoy No 601 (24° 26'·17N., 118° 02'·51E.)

(All positions are referred to WGS84 Datum).

\* Indicates new or revised entry.

15. Former Notice 345(P)/10 is cancelled.

**Charts affected - Aus 249 - Aus 823**

### 690(T)/10 AUSTRALIA - Queensland - Hay Point Eastwards and Bailey Islet Southwards - Scientific instruments. Buoyage.

Source: Australian Notice 1/60(T)/10

1. Special light-buoys, *Fl(5)Y.20s*, exist in the following positions (WGS84 Datum):

21° 16′.32S., 149° 18′.70E.

\*21° 05′.47S., 149° 33′.01E.

2. Mariners are not to use these light-buoys as moorings.

\* Indicates new or revised entry

3. Former Notice 229(T)/10 is cancelled.

**Charts affected - Aus 249 - Aus 250 - Aus 823 - Aus 824**

## II

### 691(T)/10 AUSTRALIA - Queensland - Townsville - Ross River - Works. Buoyage. Lights.

Source: Australian Notice 1/62(T)/10

1. Abutment works for the Townsville Port Access Road Bridge are in progress.
  - a) A port lateral light-buoy, *Fl.R.2-5s*, exists in position 19° 16'·16S., 146° 50'·13E. which marks the extremity of the works.
  - b) A starboard lateral light-buoy, *Fl.G.2-5s*, exists in position 19° 16'·13S., 146° 50'·13E. which marks the abutment rock walls that are being constructed.
  - c) A silt curtain will enclose the reclamation works in preparation for the construction of the rock wall and bridge embankment. The works are expected to protude approximately 50m into the river from the eastern bank and will be lit by flashing lights.  
(All positions are referred to WGS84 Datum).
2. Mariners are advised to navigate with caution in the area.
3. Former Notice 6027(T)/09 is cancelled.

**Chart affected - Aus 257**

### 692(T)/10 AUSTRALIA - Queensland - Townsville - Depth information.

Source: Australian Notice 1/63(T)/10

1. Available depths as at 22 December 2009:

	<i>Metres</i>	<i>Remarks</i>
Sea Channel	11·8	
*Platypus Harbour	11·8	
<i>Outer Harbour:</i>		
Arrival Channel	7·6	West of a line from dolphin across end berth pocket to edge of arrival channel.
*Departure Channel	11·9	
<i>Inner Harbour:</i>		
Harbour	12·0	
Berths:		
No 1	11·9	
No 2	12·2	
No 3	12·1	
No 4	10·3	
No 7	11·1	
No 8	9·9	
No 9	12·0	
No 10	9·6	To seaward dolphin
No 11	12·3	
CB Marine	1·9	
Between No 7 and No 8	10·4	Seaward of zero mark at No 7
*Between No 9 and No 10	10·6	Seaward of zero mark at No 10
*Ross River Channel	2·1	
Ross Creek	-	No declared depth

\* Indicates new or revised entry.

2. Former Notice 6601(T)/09 is cancelled.

21ft (3,3fms)	40° 34'·77N., 74° 01'·18W.
13ft, replaces 16ft depth	40° 33'·97N., 73° 59'·70W.

2. Obstructions exist in the following positions:

<i>Depth</i>	<i>Position</i>
15ft	40° 33'·94N., 73° 59'·54W.
20ft	40° 33'·79N., 74° 00'·90W.
30ft (5fms)	40° 33'·77N., 73° 55'·62W.
* 25ft	40° 32'·71N., 74° 02'·28W.
*	40° 32'·52N., 74° 02'·33W.
21ft, replaces 22ft obstruction	40° 32'·45N., 74° 02'·39W.
* 24ft, replaces 26ft depth	40° 32'·36N., 74° 02'·39W.
	40° 32'·29N., 73° 56'·72W.
* 23ft	40° 31'·44N., 74° 02'·32W.
* 18ft	40° 30'·71N., 74° 02'·48W.
19ft	40° 30'·29N., 74° 00'·84W.
22ft	40° 30'·19N., 74° 00'·35W.

## II

### 657(P)/10 UNITED STATES OF AMERICA - East Coast - New York Harbor, Upper Bay, Lower Bay and Approaches - Obstructions. Rocks. Wrecks. Depths. Barge. (continued)

3. The following obstructions no longer exist:

<i>Depth</i>	<i>Position</i>
25ft	40° 41' 11N., 74° 01' 05W. 40° 40' 86N., 74° 04' 11W. 40° 38' 38N., 74° 03' 10W.
* 27ft	40° 32' 41N., 74° 02' 19W.
15ft	40° 32' 26N., 73° 56' 81W.
* 24ft	40° 31' 90N., 74° 02' 26W.
* 28ft	40° 31' 73N., 74° 02' 43W.

4. \*Numerous obstructions exist in Chapel Hill North Channel.

5. Rocks exist in the following positions:

<i>Depth</i>	<i>Position</i>
11ft, replaces 12ft depth	40° 39' 76N., 74° 01' 86W.
13ft (2,1fms,) replaces 17ft depth	40° 35' 83N., 74° 01' 01W.
19ft	40° 31' 60N., 73° 57' 71W.
24ft	40° 31' 47N., 74° 02' 28W.
20ft, replaces 23ft depth	40° 31' 14N., 74° 02' 05W.
17ft	40° 30' 80N., 74° 01' 89W.
16ft, replaces 17ft depth	40° 30' 61N., 74° 01' 28W.
21ft	40° 30' 18N., 74° 00' 50W.

6. Wrecks exist in the following positions:

<i>Depth</i>	<i>Position</i>
54ft	40° 37' 18N., 74° 03' 79W.
22ft (3,4fms)	40° 34' 31N., 73° 54' 45W.
23ft (3,5fms,) replaces 4ft depth	40° 33' 17N., 74° 01' 06W.

7. The dangerous wreck, ED, in position 40° 33' 30N., 73° 56' 74W. no longer exists.

8. Depths less than charted exist in the following positions:

<i>Depth</i>	<i>Position</i>
26ft	40° 40' 66N., 74° 03' 82W.
31ft	40° 40' 07N., 74° 01' 85W. 40° 39' 97N., 74° 01' 91W.
18ft	40° 39' 94N., 74° 05' 01W.
33ft	40° 39' 90N., 74° 02' 31W.

#### NAVIGATIONAL WARNINGS

See *The Mariner's Handbook (2009 Edition)*. Messages printed below are all in force on 1 February 2010. It is recommended that this reprint should be kept in a file or book divided into areas, followed by subsequent weekly reprints. Only the most convenient Admiralty Chart is quoted. For those series originated by other authorities only selected important warnings are reproduced.

**NP 45 Mediterranean Pilot Volume 1 (2008 Edition)**

**Italy - Sicilia - Catania — Traffic Separation Scheme**

448

Paragraph 13.19 1 line 1 *Replace by*:

1 **Traffic Separation Scheme.** A TSS has been established in the approaches to the port. It comprises inward and outward traffic lanes and a semi-circular precautionary area, radius 1 mile, centred on 37°28'·7N 15°05'·7E.

All vessels over 300 gt and fishing vessels of 24 m or more, are advised to approach the port on a W heading and at a speed of no more than 15 kn.

2 Vessels must keep at least 8 cables from the vessel ahead.

Maximum speed in the precautionary area is 9 kn.

The scheme is not IMO-adopted. The Italian authorities advise that the principles for the use of the scheme, as defined in Rule 10 of the *International Regulations for Preventing Collisions at Sea (1972)*, apply.

3 **Notice of ETA required:** 72 hours. See *Admiralty List ...*

Paragraph 13.19 1 line 5 *Replace by*:

...Levante, clear of the TSS precautionary area.

Paragraph 13.19 2 line 1 *Replace by*:

4 **Submarine cables** come ashore about 1½ miles SSW of ...

Paragraph 13.19 3 lines 1-5 *Replace by*:

5 **Pilotage** is compulsory for vessels of more than 500 gt. The pilot boards 1¼ miles SE of the head of Molo di Levante, at the junction of the precautionary area and the separation zone. See 1.22 and *Admiralty List of Radio Signals Volume 6(3)*.

449

Paragraph 13.21 3 line 1 *Replace by*:

3 The port is approached via the inbound lane of the TSS, and thence to the pilot boarding area (13.19).

## VI

# AMENDMENTS TO ADMIRALTY LIST OF RADIO SIGNALS

Weekly Edition No. 6 dated 11 February 2010

---

The **Admiralty List of Radio Signals diagrams** included in the paper version of the weekly Notice to Mariners (Section VI) are printed in black and white. If required, a colour version of these diagrams can be downloaded from the UKHO website. To obtain a colour version of these diagrams go to: [www.ukho.gov.uk](http://www.ukho.gov.uk) - select **PRODUCTS AND SERVICES** - select **Maritime Safety Info** - select **Visit NMs page and Download NMs** - select **Weekly** - select **Year** - select **Week** - go to **Selected Week Content** - select **File** (for example: NP286(3)-WK01-10-PAGE149\_Week01\_2010.pdf)

---

**AZURITE TERMINAL (FDPSO)****5°38'S 10°59'E****Pilots and Terminal****LOCATION:** FDPSO Azurite: 5°38'·13S 10°59'·38E**CONTACT DETAILS:**Call: Azurite Terminal (**3ENN8**)

VHF Frequency: Ch 09 12 16

Telephone: +65 67960810

+870 764877398 (Inmarsat M)

Fax: +65 67960804 ext 250

+870 764877399 (Inmarsat M)

+65 67960809 (VSAT)

E-mail: oim.azurite@prosafeproduction.com

**HOURS:** H24**PROCEDURE:**

- (1) **Pilotage is compulsory** within a 2 n mile radius of the Azurite Terminal.
  - (2) **Notice of ETA:** Vessels should send an initial ETA to the terminal at least 7 days prior to arrival. The message should be updated 72h, 48h, 24h, 12h and 4h before arrival.
  - (3) In cases where the vessel's sea passage from the last port is less than 72h from the terminal, notice should be given immediately upon departure from the last port.
  - (4) Vessels should send further ETA messages to the terminal if the vessel's ETA varies from the original 72h or 48h ETA notice by 4h or more.
  - (5) Should the ETA change by 1h or more following the 24h notice, the vessel shall promptly notify the terminal of the new ETA.
- NOTE: Time to be used for ETA notices is LT (GMT +1 throughout the year).
- (6) The terminal is closed to newly arriving vessels between 1600-0600 LT.
  - (7) A waiting area is located 10 n miles due west from the terminal.
  - (8) The terminal maintains a continuous radio watch on VHF Chs 12 and 16 and vessels are required to use these Channels when within range of the terminal and especially when approaching the terminal. If the vessel is requested to drift whilst awaiting mooring, it should maintain a constant radio watch on VHF Chs 12 and 16 and/or an agreed working Channel, to receive terminal instructions.
  - (9) VHF Ch 12 is the primary communication Channel during offtake operations. If VHF Ch 12 is not available, VHF Ch 09 will be used as an alternative.
  - (10) All communication shall be in English.
  - (11) A marine exclusion zone of 2 n miles radius centred on the terminal has been established. Vessels are prohibited from navigating within this zone unless the Mooring Master is on board.
  - (12) **Pilot boards** in position 5°36'·10S 10°59'·40E.

*continued on next column*

**PROCEDURE:**

- (1) **Pilotage is compulsory** for all vessels of 500 GT and over, and is available H24.
- (2) **Pilot ordering:** Pilotage should be ordered through the agent at least 24h in advance.
- (3) **Notice of ETA:** Vessels should send ETA 24h in advance through the agent stating:
  - (a) Vessel's name
  - (b) Flag
  - (c) Draught
- (4) Vessels should establish contact with the pilots on VHF Ch 13, 1h prior to arrival.
- (5) **Pilot boards** in position 19°11'25N 96°03'28W (S of Isla Verde).

**NOTE:**

For vessels bound for the anchorage areas, pilot boards between Isla Verde and the anchorage areas.

**Vessel Traffic Service****CONTACT DETAILS:**

Call: Veracruz Traffic  
 VHF Frequency: Ch 16; 10  
 Telephone: +52(01)229 9232190

**HOURS:** H24**PROCEDURE:**

Vessels should contact Veracruz Traffic on VHF Chs 10 or 16 when entering the TSS.

MV Vossberg & Vera Cruz Pilots, (RSDRA2009000155099), 6/10

## INSTRUCTIONS:

1. Mariners are requested to notify the United Kingdom Hydrographic Office (UKHO) (*by mail: SDRA, UKHO, Admiralty Way, Taunton, Somerset, TA1 2DN, United Kingdom or by email: [hdcfiles@ukho.gov.uk](mailto:hdcfiles@ukho.gov.uk)*) when new or suspected dangers to navigation are discovered, changes observed in aids to navigation, or corrections to publications are seen to be necessary. The Mariner's Handbook (NP 100) Chapter 8 gives general instructions. If practicable the Mariner should also contact the originating Hydrographic Office when navigating on IMO Approved non-UKHO ENC's. The provisions of international and national laws should be complied with when forwarding such reports.
2. This form and its instructions have been designed to help both the sender and the recipient. It should be used, or followed closely, whenever appropriate. Copies of this Form may be obtained gratis from the UKHO at the above address, or principal Chart Agents (see Annual Notice to Mariners No. 2). This form is also available on the web: [www.ukho.gov.uk/amd/marHNotes.asp](http://www.ukho.gov.uk/amd/marHNotes.asp)
3. **Accurate position or knowledge of positional error is of great importance. Latitude and longitude should only be used to specifically position the details when they have been fixed by GPS or Astronomical Observations.** A full description of the method, equipment, time, estimated error and datum (where applicable) used should be given. When position is defined by sextant angles or bearings (true or magnetic to be specified), more than two should be used in order to provide a redundancy check. Where position is derived from Electronic Position Fixing (eg LORAN C) or distances observed by radar, the raw readings of the system in use should be quoted wherever possible. Where position is derived after the event, from other observations and/or Dead Reckoning, the methodology of deriving the position should be included.
4. *Paper Charts:* A cutting from the largest scale chart is the best medium for forwarding details, the alterations and additions being shown thereon in red. When requested, a new copy will be sent in replacement of a chart that has been used to forward information, or when extensive observations have involved defacement of the observer's chart. If it is preferred to show the amendments on a tracing of the largest scale chart (rather than on the chart itself) these should be in red as above, but adequate details from the chart must be traced in black ink to enable the amendments to be fitted correctly.  
*ENCs:* A screen dump of the largest scale usage band ENC with the alterations and additions being shown thereon in red.
5. When **soundings** are obtained The Mariner's Handbook (NP 100) should be consulted. The echo sounding trace should be marked with times, depths, etc., and forwarded with the report. It is important to state whether the echo sounder is set to register depths below the surface or below the keel; in the latter case the vessel's draught should be given. Time and date should be given in order that corrections for the height of the tide may be made where necessary. The make, name and type of set should also be given.
6. **For modern sets that use electronic 'range gating', care should be taken that the correct range scale and appropriate gate width are in use.** Older electro-mechanical echo sounders frequently record signals from echoes received back after one or more rotations of the stylus have been completed. Thus with a set whose maximum range is 500m, an echo recorded at 50m may be from depths of 50m, 550m or even 1050m. Soundings recorded beyond the set's nominal range can usually be recognised by the following:
  - (a) the trace being weaker than normal for the depth recorded;
  - (b) the trace passing through the transmission line;
  - (c) the feathery nature of the trace.

As a check that apparently shoal soundings are not due to echoes received beyond the set's nominal range, soundings should be continued until reasonable agreement with charted soundings is reached. However, soundings received after one or more rotations of the stylus can still be useful and should be submitted if they show significant differences from charted depths.
7. **Reports which cannot be confirmed or are lacking in certain details should not be withheld.** Shortcomings should be stressed and any firm expectation of being able to check the information on a succeeding voyage should be mentioned.
8. Reports of **shoal soundings**, uncharted dangers and aids to navigation out of order should, at the mariner's discretion, also be made by radio to the nearest coast radio station. The draught of modern tankers is such that any uncharted depth under 30 metres or 15 fathoms may be of sufficient importance to justify a radio message.
9. Changes to Port Information should be forwarded on Form H.102A and any GPS/Chart Datum observations should be forwarded on Form H.102B together with Form H.102. Where there is insufficient space on the forms an additional sheet should be used.
10. Reports on ocean currents should be made in accordance with The Mariner's Handbook (NP 100) Chapter 8.

*Note.* - An *acknowledgement* or receipt will be sent and the information then used to the best advantage which may mean immediate action or inclusion in a revision in due course; for these purposes, the UKHO may make reproductions of any material supplied. When a Notice to Mariners is issued, the sender's ship or name is quoted as authority unless (as sometimes happens) the information is also received from other authorities or the sender states that they do not want to be named by using the appropriate tick box on the form. An explanation of the use made of contributions from all parts of the world would be too great a task and a further communication should only be expected when the information is of outstanding value or has unusual features.

# HYDROGRAPHIC NOTE FOR PORT INFORMATION

(To accompany Form H.102)

**H.102A**

(Oct 2008)

## Forwarding information for Admiralty Charts, ENCs and Hydrographic Publications

Date	Ref. Number
Name of ship or sender	
Address	
Tel/Fax/Telex/E-mail address of sender	
General Locality	

<b>1. NAME OF PORT</b>	
<b>2. GENERAL REMARKS</b> Principal activities and trade. Latest population figures and date.  Number of ships or tonnage handled per year.  Maximum size of vessel handled.  Copy of Port Handbook ( <i>if available</i> ).	
<b>3. ANCHORAGES</b> Designation, depths, holding ground, shelter afforded.	
<b>4. PILOTAGE</b> Authority for requests.  Embark position.  Regulations.	

<b>5. DIRECTIONS</b> Entry and berthing information.  Tidal streams.  Navigational aids.	
<b>6. TUGS</b> Number available.	
<b>7. WHARVES</b> Names, numbers or positions & lengths.  Depths alongside.	

# HYDROGRAPHIC NOTE FOR PORT INFORMATION

(To accompany Form H.102)

**H.102A**

(Oct 2008)

<b>8. CARGO HANDLING</b> Containers, lighters, Ro-Ro etc.	
<b>9. REPAIRS</b> Hull, machinery and underwater.  Shipyards.  Docking or slipping facilities. <i>(Give size of vessels handled or dimensions)</i>  Divers.	
<b>10. RESCUE AND DISTRESS</b> Salvage, Lifeboat, Coastguard, etc.	
<b>11. SUPPLIES</b> Fuel. (with type, quantities and methods of delivery)  Fresh water. (with method of delivery and rate of supply)  Provisions.	
<b>12. SERVICES</b> Medical.  Ship Sanitation.  Garbage and slops.  Ship chandlery, tank cleaning, compass adjustment, hull painting.	
<b>13. COMMUNICATIONS</b> Nearest airport or airfield.  Port radio and information service. (with frequencies and hours of operating)	
<b>14. PORT AUTHORITY</b> Designation, address, telephone, e-mail address and website.	

# HYDROGRAPHIC NOTE FOR PORT INFORMATION

(To accompany Form H.102)

**H.102A**

(Oct 2008)

15. <b> VIEWS</b> Photographs (where permitted) of the approaches, leading marks, the entrance to the harbour etc.	
16. <b> ADDITIONAL DETAILS</b>	
Signature of observer/reporter	
Tick box if not willing to be named as source of this information	

## NOTES:

1. This form is designed to assist in the reporting of any observed changes to Port Information details and should be submitted as an accompaniment to Form H.102 (full instructions for the rendering of data are on Form H.102 - *email: [hdcfiles@ukho.gov.uk](mailto:hdcfiles@ukho.gov.uk)*). In addition, the Mariner's Handbook (NP 100) Chapter 8 gives general instructions. If practicable the Mariner should also contact the originating Hydrographic Office when navigating on IMO Approved non-UKHO ENC's. The provisions of international and national laws should be complied with when forwarding such reports.
2. Form H.102A lists the information required for Admiralty Sailing Directions and has been designed to help both sender and recipient, the sections should be used as an aide-mémoire, being used or followed closely, whenever appropriate. Where there is insufficient space on the form an additional sheet should be used.
3. **Reports which cannot be confirmed or are lacking in certain details should not be withheld.** Shortcomings should be stressed and any firm expectation of being able to check the information on a succeeding voyage should be mentioned.
